

Multi-Car Adaptor

The most powerful Car Adaptor in the world

C30

Patent Design

Cup Holder Style

5A USB Output

180W Power

- The most powerful Car Adaptor in the world
- Cup Holder Style to save the occupied space in-car
- 4 USB port with 5A output
- 3 Cigarette lighter ports to expand
- Max: 180w output power
- Self-resetting fuse installed, it will automatically cut off and recover when detecting over power occurred
- Accurate car battery voltage display to avoid car engine start fail due to low battery voltage.

4 USB Ports

Easy to install

Cup Holder Design

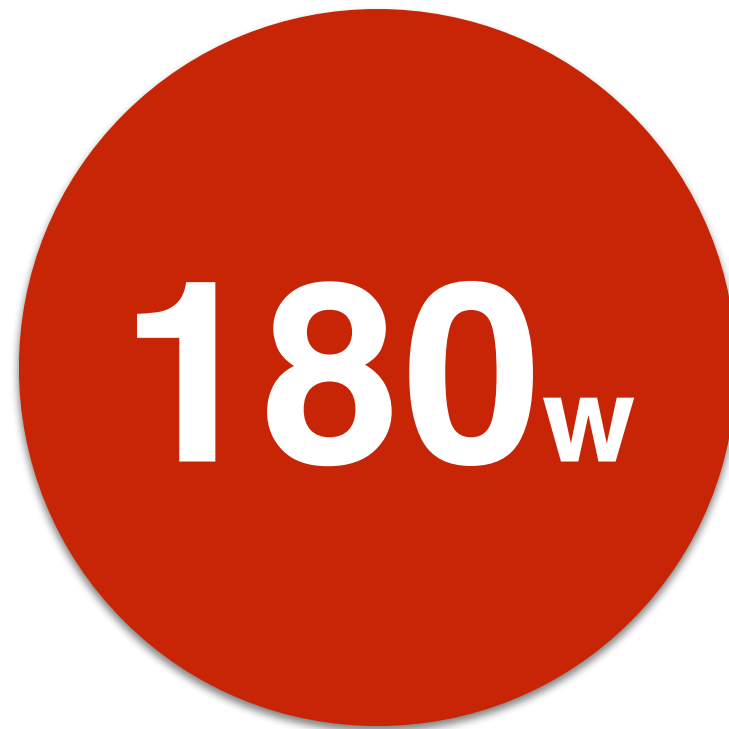

Car battery checker

To show the detail voltage of car battery

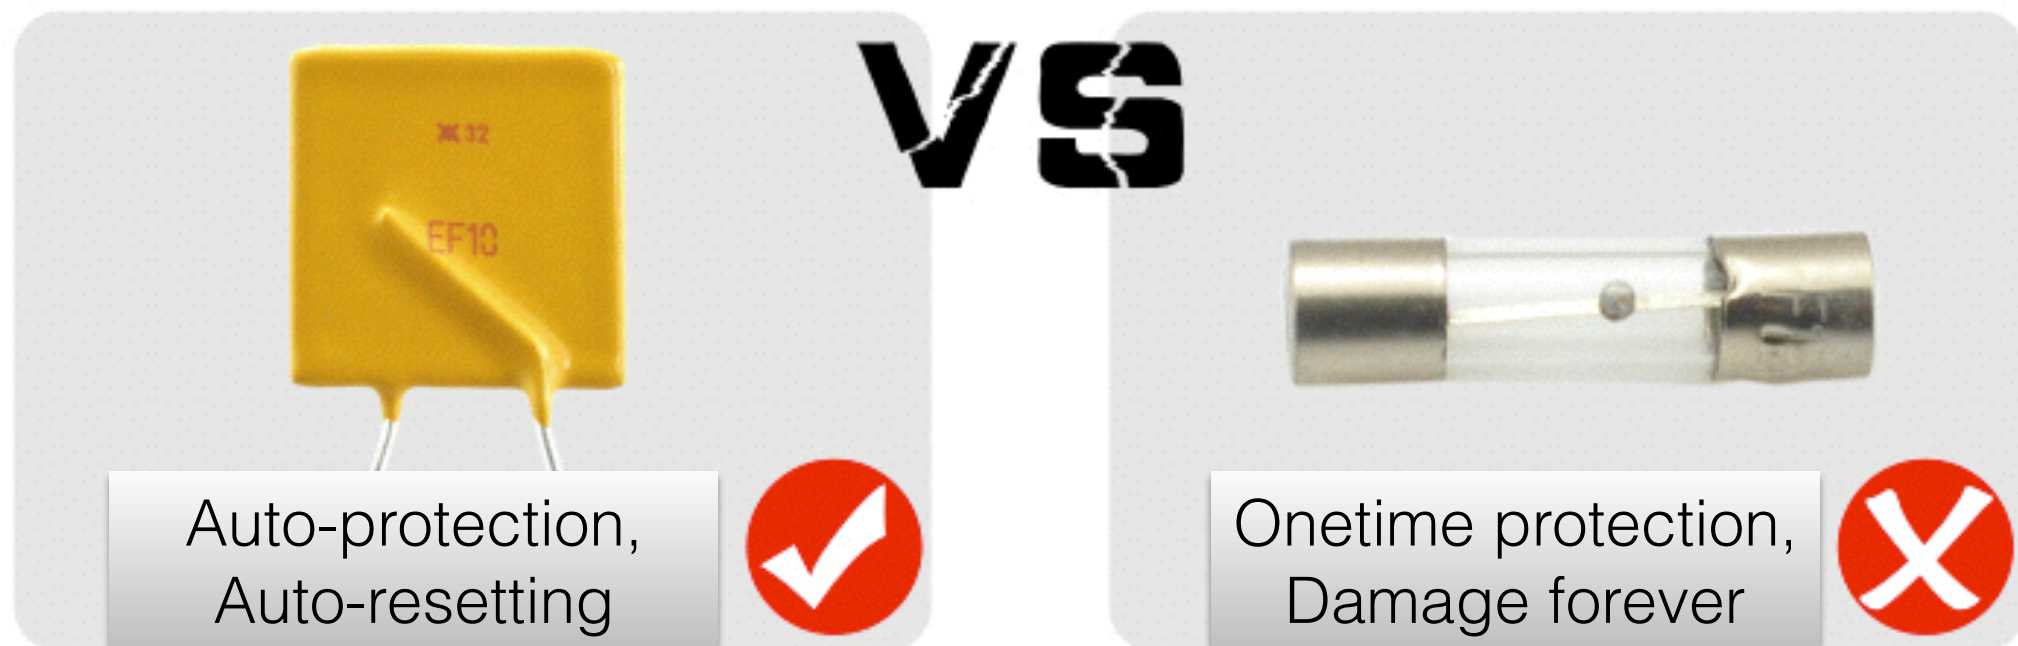

Highest Power

In the market

Self-resetting Fuse

It will automatically cut off and recover when detecting over power occurred

Quality Competent

Design and quality are specially made to support the high-power car adaptor

Support cigarette lighter

Support original cigarette lighter

Option

GPS Tracker build-in with 2600mAh battery

Specification

- Input Voltage: DC 12-24V
- Input Current: without load: 15mA MAX, with load: 1.8A MAX
- output voltage: without load: DC 5.0V-5.4V, with load: DC $\geq 4.75V$
- USB output current: 5000mA MAX
- USB Output Ripple Noise: 200mV MAX
- Input Protection:
 - There is a Self-resetting 3A safety fuse installed, and it will automatically cut off and recover when detecting over power occurred.
- Output Protection:
 - Both input and output power will be limited when short circuit occurs, and system will resume to the normal charging state automatically afterward.
